Dear Ms. Connor,

Thank you for your letter of October 6, 2010.

My letter/petition to Judge Gregory was meant in and of itself as what I have come to learn would be called an INTERLOCUTORY appeal. As on Page 6 I asked if that said letter could be accepted as a Petition. ? Please review pg. 6 of that letter.

Ms. Connor, the only family I have is my 81 yr. old sister on a fixed income. She really needs me at home to take care of her.

My letter/Petition speaks for itself. If the cited case laws are applied and adhered to. I'm only trying to nip this case in the bud so justice will be done now and not 2 or 3 years in the future when by then my sister could have passed away.

Pg 2

My alledged crime. I wrote one (1) letter to my ex-fiancee of 35 years ago. Wanting some answer's to some question's and also letting her know that my soul was more important than covering up a lie for her. Being up in age now (56 yrs old) when alot of people start dying natural deaths. I was being honest and truthful with her that I would not cover up for her any-more.

Her husband intercepted and kept the letter and had the F.B.I. to get me for stalking. From only one letter!

That is what my letter / petition to the 4th Circuit Court per to Judge Gregory was about. Her husband's actions under Texas law made him the equivalent of a state law enforcement officer and his actions violated my 4th Amendment rights to unlawful search and seizure. So the charges should be dismissed and everything thereafter as fruit of the poison tree.

Any help you could provide in seeing that I should have a hearing on my PRO SE Motion to Suppress Evidence as referred to in my letter / petition to Judge Gregory would be greatly appreciated.

Thank you!

SO MY Sincerely,

CASE 1:09-cr-00270
STILL OPENED.

Thomas C. Shader

P.S. = Will NOT BE SENTENCED UNTIL 11/18/10,
